Dear Sirs:

Regarding label placement for this application, Tekk International Incorporated wishes to place the label inside the battery compartment. This location will ensure the end user view the label before operation, as the equipment is sold without the battery installed and the end user would be exposed to the label before operation. This location will help ensure the longevity of the label as this equipment may be in service in harsh environments. The device is a small, hand-held with many curved surfaces. The identifier label will be readily viewable each time the battery pack is removed or replaced.

Dave Stubbs
President
Tekk International Inc.
